

Montana Department of LABOR & INDUSTRY

1
2 **Division: Workforce Services Division**

3 **Category: SWIB**

4 **Effective Date: 07/31/2017**

5 **Last Revised: 10/22/2018**

6 **Policy No.: 07-17**

7 **One-Stop Certification Policy**

8 **Background:** Title I of Workforce Innovation and Opportunity Act (WIOA) requires the State Workforce
9 Innovation Board (SWIB) to establish criteria and procedures to be used to evaluate and certify one-stop sites
10 for effectiveness, including customer satisfaction, physical and programmatic accessibility, and continuous
11 improvement. The SWIB must certify one-stop sites in order for the sites to receive one-stop infrastructure
12 funds. The SWIB will certify two types of sites, comprehensive and affiliate as defined in 20 CFR 678.305-310.

13 **Scope:** This policy applies to all Workforce Service Division (WSD) staff and partner staff at both the
14 comprehensive and affiliate centers. This policy is effective October 22, 2018.

15 **Policy:**

16 **One-Stop Evaluation and Certification Criteria:**

- 17 • The SWIB must review and update the one-stop certification criteria contained on the SWIB State of
18 Montana One-Stop Certification every two years as part of the review and modification of the WIOA State
19 Plan.
- 20 • The SWIB may establish additional criteria and set higher standards for service coordination than those
21 set by WIOA. If the SWIB does this, the SWIB must also review and update those additional criteria and
22 standards every two years as part of the WIOA State Plan review and modification process.

23 **One-Stop Evaluation and Certification Frequency:**

- 24 • One-stop sites will be evaluated and certified no less than once every three years. SWIB may direct “for-
25 cause” site evaluation and certification as determined appropriate and warranted.
- 26 • In support of the goal of continuous improvement, each certified site will provide an annual report to the
27 SWIB detailing the progress toward reaching higher standards set forth in the certification criteria.

28 **Certification Teams:**

- 29 • The SWIB or the designated team is responsible for conducting independent and objective evaluations
30 of one-stop sites and making certification recommendations to the one-stop operator.
- 31 • One-stop certification must be conducted by individuals who do not have a financial tie to the one-stop
32 site and are free of conflicts of interest.
 - 33 ○ WIOA defines conflict of interest, in addition to the requirements at 2 CFR 200.318, as:
 - 34 ■ A SWIB member or standing committee member must neither cast a vote on, nor
35 participate in any decision-making capacity, on the provision of services by such
36 member (or any organization which that member directly represents), nor on any matter

- 37 which would provide any direct financial benefit to that member or that member's
38 immediate family.
- 39 ■ Neither membership on the SWIB or a standing committee, nor the receipt of WIOA
40 funds to provide training and related service, by itself, violates this conflict of interest
41 provision.
 - 42 ■ In accordance with the requirements at 2 CFR 200.112, recipients of Federal awards
43 must disclose in writing any potential conflict of interest to the Department of Labor and
44 Industry.
- 45 ● The certification team may utilize experts from the state level or outside of the local area to ensure
46 evaluations are objective.

47 Certification Process:

- 48 ● The certification team will contact each site in advance of the site visit to schedule the one-stop
49 certification.
- 50 ● Each one-stop to be certified, both comprehensive and affiliate, will be provided with the One-Stop
51 Certification Template prior to the site visit from the certification team.
- 52 ● The certification team will evaluate the one-stop using the required WIOA elements contained on the
53 One-Stop Certification Template.
- 54 ● The certification team will notate the existence of compliance with one-stop system requirements, WIOA
55 partner co-locations, career services offered on site and business services offered on site. The notations
56 will be made by a combination of observations of the physical site and interviews with staff at the site.
- 57 ● Upon completion of notating the one-stop system requirements the certification team will utilize the
58 following scale in determining where the site is on its path toward meeting or exceeding the stated
59 standard:
 - 60 ○ 5= exceeding standard, excellence
 - 61 ○ 4= achieved the standard
 - 62 ○ 3=significantly meeting standard with some work yet to do
 - 63 ○ 2= have some of the elements in place, some of the time
 - 64 ○ 1= making progress, but have a long way to go
- 65 ● The site will receive a score in the following categories:
 - 66 ○ Functional and Programmatic Integration;
 - 67 ○ Performance and Accountability;
 - 68 ○ Service Provision, Including Service, Universal Access, and Outreach To Populations with
69 Barriers;
 - 70 ○ Customer Satisfaction;
 - 71 ○ Staff Competence and Staff Training Participation;
 - 72 ○ Partnership; and
 - 73 ○ Business Engagement.

74 Certification Determinations:

- 75 ● A determination that the site has achieved a score of 4 or 5 in a category will not require the site to
76 submit an action plan. A score of 3 or below will require the site to submit an action plan in response to
77 the deficiencies.
 - 78 ○ The site will be provided with an Action Plan Template along with a written justification for the
79 score from the certification team within 5 business days of the site visit.
 - 80 ○ The site must return the completed Action Plan Template to the certification team within 10
81 business days of receipt of notice of deficiency.
 - 82 ○ An accepted action plan will result in a provisional certification until the site demonstrates the
83 completion of their action plan.
 - 84 ○ An insufficient action plan will result in the site not receiving a certification or being decertified.

- 85 • The SWIB or the designated team will provide a written one-stop certification determination within 30
86 days of conducting one-stop evaluations. There are three possible determinations:
 - 87 ○ Certification;
 - 88 ○ Provisional certification with a requirement that the one-stop operator provides an action plan
89 that addresses deficiencies and timelines for meeting certification standards; and
 - 90 ○ Not certified or decertified.
- 91 • Provisional certifications must be accompanied by a detailed description of the issues/concerns
92 identified so the one-stop operator has sufficient information around which to develop required action
93 plans and timelines for completing the action plan.
- 94 • A determination to not certify a one-stop must be accompanied by a detailed description of the
95 deficiencies, including an explanation as to why the SWIB or designated team believed the deficiencies
96 could not be addressed or resolved provisionally.

97 **Appeals:**

- 98 • The operator of one-stop sites that are not certified may appeal the determination, in writing by mail or
99 email, to the SWIB within 14 days after the written notification of the decision. The appeal must include
100 the justification for the appeal in the request. The operator also has the right to request a hearing to
101 discuss the appeal.
 - 102 ○ Appeal Process: The one-stop operator can choose to appeal the non-certification or
103 decertification of the site. The one-stop operator must submit the appeal in writing either by mail
104 or email to the following address(s) within 14 days after the written notification of the decision.

105 Montana State Workforce Innovation Board
106 PO Box 1728
107 Helena, MT 59624-1728
108 Or
109 swib@mt.gov
- 110 • The appeals procedure will allow for a review before the SWIB WIOA committee if requested and a
111 decision will be made within 60 days of appeal. This will be a final decision and the site will be unable to
112 request certification for one year from the date of final notification by the state.
