Montana LTAP
Work Zone Technician & Flagger Training Certification

Workshop Objective:
To learn work zone technician and flagging procedures to become a certified flagger.

Workshop Description
This workshop is a combination of lecture, manuals, video and hands-on problem solving with regards to flagging in a work zone. The five parts of a Traffic Control Work Zone will be discussed.

Work Zone Technician training provides basic knowledge of temporary traffic control in installing traffic control devices, monitoring their performance, and recognizing issues during the course of a project.

Flagging duties and responsibilities will be taught. Safety, uniformity and liability issues will also be covered. Montana flagger certification cards will be issued to participants successful in completing the course exam.

Who Should Attend:
Road department employees from cities, counties, MDT, Forest Service and Park Service, as well as BIA and Tribal employees will all benefit from attending this workshop.

Instructor
Montana LTAP Director Steve Jenkins, P.E., obtained his Master’s degree in Geotechnical Engineering. He also directed Utah LTAP and MT TTAP. For the past 21 years, Steve has instructed Flagger Certification and other work zone courses. His involvement has been with local and tribal governments. He has received recertification through ATSSA’s Flagger Instructor Training Course.
