Background: The Workforce Innovation and Opportunity Act (WIOA) puts into place a Credential Attainment indicator for Title I, Title II, and Title IV programs. Credential Attainment is the percentage of participants enrolled in an education or training program (excluding OJT and Customized Training) who attained a recognized postsecondary credential or a secondary school diploma, or its recognized equivalent, during participation in or within one year after exit from the program.

A participant who attained a secondary school diploma or its recognized equivalent is included in the percentage of participants who have attained a secondary school diploma or its recognized equivalent only if the participant is also employed or is enrolled in an education or training program leading to a recognized postsecondary credential within one year after exit from the program.

Scope: This policy applies to all service providers operating WIOA Title I Adult, Dislocated Worker or National Dislocated Worker Grants and/or Youth programs; WIOA Title I Adult, Dislocated and Youth program manager(s); WIOA fiscal officers; and the WIOA monitoring team. This policy is effective October 1, 2019.

Policy:
- All training services must be clearly identified and expectations for earning a credential must be stated in the participant’s Individual Service Strategy, Individual Employment Plan, Individualized Plan for Employment, or PEP Talk. The participant must understand that once training begins, he or she is expected to complete all requirements. If the participant failed to complete the entire program, program personnel must not report a credential.

Credentials:
- Credential: This indicator measures attainment of two types of credentials:
  - Recognized postsecondary credential
  - Secondary school diploma or its recognized equivalent
- Recognized Postsecondary Credentials are defined as a credential consisting of:
  - Industry-recognized certificate or certification;
  - Certificate of completion of an apprenticeship;
  - License recognized by the State or Federal government;
  - Associate or baccalaureate degree; and
  - Graduate degrees for purposes of the VR program.
- A recognized postsecondary credential is awarded in recognition of an individual’s attainment of measurable technical or industry/occupational skills necessary to obtain employment or advance within
an industry/occupation. These technical or industry/occupational skills generally are based on standards developed or endorsed by businesses or industry associations.

- Home Builders Institute (HBI) is an allowable construction credential for WIOA youth co-enrolled in programs that provide a Pre-Apprenticeship curriculum such as YouthBuild.

- Certificates must recognize technology or industry/occupational skills for the specific industry/occupation rather than general skills related to safety, hygiene, etc., even if such general skills certificates are broadly required to qualify for entry-level employment or advancement in employment.

- Examples of recognized postsecondary credentials that meet the definition:
  - Certified Nursing Assistant (CNA) License – example of Occupational License
  - Automotive Service Excellence (ASE) Certification – example of Occupational Certificate
  - Certificate of Completion of a Registered Apprenticeship Program - example of Occupational Certificate
  - Associates of Applied Science Degree in Diesel Technology - example of Associates Degree
  - National Institute for Metalworking Skills (NIMS) Certification - example of Occupational Certificate
  - Massage or Cosmetology License - example of Occupational License

**Public and Private Entities Issuing Postsecondary Credentials:**

- State educational agency or a state agency responsible for administering vocational and technical education within a state;

- An institution of higher education described in the Section 102 of the Higher Education Act that is qualified to participate in the student financial assistance programs authorized by Title IV of the act. This includes community colleges, proprietary schools, and all other institutions of higher education that are eligible to participate in federal student financial aid programs;

- An institution of higher education that is formally controlled, or has been formally sanctioned or chartered, by the governing body of an Indian tribe or tribes;

- A professional, industry, or business organization (e.g., National Institute for Automotive Service Excellence certification, National Institute for Metalworking Skills Inc., Machining Level 1 credential) or product manufacturer or developer, (e.g., recognized Microsoft Information Technology certificates, such as Microsoft Certified IT Professional, Certified Novell Engineer, a Sun Certified Java Programmer, etc.) using a valid and reliable assessment of an individual’s knowledge, skills, and abilities;

- State Registered Apprenticeship Agency or ETA’s Office of Apprenticeship;

- A public regulatory agency, which awards a credential upon an individual’s fulfillment of educational, work experience, or skill requirements that are legally necessary for an individual to use an occupational or professional title or to practice an occupation or profession (e.g., Federal Aviation Administration aviation mechanic license, or State-licensed asbestos inspector);

- A program that has been approved by the Department of Veterans Affairs to offer education benefits to veterans and other eligible persons; and

- Job Corps, which issues certificates for completing career training programs that are based on industry skills standards and certification requirements.

**Recognized Secondary School Diploma or its RecognizedEquivalent:**

- Credential attainment performance indicator is a secondary school diploma that is recognized by a state and is included for accountability purposes under the Elementary and Secondary Education Act of 1965 as amended by Every Student Succeeds Act (ESSA). A secondary school equivalency certification signifies that a student has completed the requirements of a high school education. Examples of secondary school diplomas, alternate diplomas, and recognized equivalents recognized by the states include:
  - Obtaining certification of attaining passing scores on a state-recognized high school equivalency test;
Earning secondary school diplomas, alternate diplomas, and recognized equivalent through a credit bearing secondary education program sanctioned by state law, code or regulation (applies to WIOA Title I and IV only);

- Obtaining certification of passing a state-recognized, competency-based assessment (applies to WIOA Title I and IV only);

- Completion of a specified number of college credits (applies to WIOA Title I and IV only).

**Documentation:** Program personnel will obtain a copy of the certificate (diploma, certificate, school letters, license or school transcript that indicates degree attained, etc.) and place the document in the participant’s file. School letters must have the participant’s name and actual date of graduation.

**Monitoring and Evaluation:**

- A formal monitoring will be conducted by the entity designated by SWIB.
